

Physical Science - (Grades 7-9) Science Lab

Offered by: Central Mass. Christian Homeschoolers (2017-2018)

Teacher: **Joan Moreau**

Time: Friday 10:20-11:50 Twice a month

Location: Grace Baptist Church, Hudson, MA

Class & Material Cost: \$140 non-members / \$20 members of CMCH

Book: Apologia Physical Science (must be purchased by student)

Prerequisite: None

This is a 1 ½ – 2 hour class that meets on Friday only (meets twice a month on regular co-op days, though we may need to meet an extra time or two to fit in all the labs).

Students will work with the teacher on the labs during our class time. They will be expected to be reading the text and doing the questions and tests on their own at home. The expectation will be that they have read the module and its corresponding labs prior to attending the class. Parents are expected to administrate and grade all exams and other work.

From the Apologia website: This course is designed to be the last science course the student takes before high school biology. Thus, we generally recommend it as an 8th grade course. However, your student can also use it for their 9th grade course work.

The text discusses such topics as the atmosphere, the hydrosphere, weather, the structure of the earth, environmentalism, the physics of motion, Newton's Laws, gravity, and astrophysics.
